I ain't no hero, I'm not no fighter,  
I'm just somebody who loves you very much,  
I'm not the future, I ain't no statue  
I'm just somebody who longs for your touch

I'm only human, But I'll be a superman for you

It's just emotion, no need to fight it  
It's somethin' girl that I know you can't hide  
And in a minute, whoa I know you're gonna feel it

I'm only human, But I'll be a superman for you

All that I say, Goin' strait to you girl  
Every day, devoted to you girl  
Never Never Never go away
