Say Hello to the Rainbow child
She don't talk much she just sits there and smiles
She's gotta heavy heart that beats to the rythm of a
different song

Say hello to the Rainbow Child
She don't say much it's just her personal style
She's gotta magic mind that that reaches to the border
of the riverside

She don't know what she has in her hands
If someone tried to tell her she won't understand

She's like the wind & the rain & the flowers & the pain,
She is everything.

Open your arms to the Rainbow Child,
If you needed her love she would travel the miles
She's gotta heavy heart that beats to the rythm of a
different song.
