"Seven Sisters Road"

Visit "[Seven Sisters Road](#)" on MotoLyrics.com

I met a little cutie - her name was Judy and we made
love all the time
Down on seven sisters road
Well she had more than your average score and she
never drew the line -
Down on seven sisters road

Her house was thumpin' I could feel her bumpin'
halfway across the room
Down on seven sisters road
I knew I was in trouble when her turntable bubbled with
the Dark Side Of The Moon
Down on seven sisters road

Well she wasn't one of your typical saloon-type girls
Yet you wouldn't exactly take her home to your mother,
OR your brother

Now she's just a memory about a million miles away
I would've laid all day in bed beside her but I think she
gets paid..
Don't make much difference to me she's more reason
than rhyme
If I could do it all again I'd make her mine all mine all
mine..

I wish I could take her away from seven sisters road

I knew a little cutie her name was Judy and we used to
make love all the time..
Down on seven sisters road
I understand she's gotta new man but for a day she
used to be mine
Down on seven sisters road
And that's right!
