I wouldn't build you a castle baby just to tear it down
When I say I love you girl, it means I'll always be around
I wouldn't tell you promises just to break your heart
When I say I love you girl it means we'll never be apart

Our love is higher than the mountains
Stronger than steel
Forever isn't long enough, to show you how I feel
Our love is deeper than the ocean
Stronger than steel
Forever isn't long enough, to show you how I feel

I wouldn't tell you secrets girl, just for words to say
When I wisper in your ear, it means that nothing will get
in the way
When I swin into your waters, you know I wanna drown...
When I say to close your eyes your love is the only
sound
