If I had me a bag of good wishes
There's no mystery to what I would do
I would use all my magical powers
And try to get next to you

I would bring you a field of flowers
As your lucky star would do
With my heart I would paint you a rainbow
If I could get next to you

There's so much we can share
However far too long

We both know that there's so much here
This is where I belong

Late at night when I close my eyes
Make believin' that you are here
Dreamin' of the things we do
If I could get next to you

In my mind, Ooh ooh, I have kissed you
And it feels like a thousand times
I'd lose track of all the hours
Dreamin' I'm next to you

This is where I belong

Late at night when I close my eyes
Make believin' that you are here
Dreamin' of the things we do
If I could get next to you

In my mind, Ooh ooh, I have kissed you
And it feels like a thousand times
I'd lose track of all the hours
Wishing and hoping
That I could get next to you
