Sally cleans the kitchen
The kids in her hair
Gotta step outside
Gonna get some fresh air
Gets behind the wheel
With just the clothes that she packed
She's headin' for the freeway
But she ain't comin' back

Night after night after night can't sleep
Something 'bout the spell of goin' down on the street
Just can't stand another minute inside
I think you better hit the road
And drive

Billy's in the bathroom
Shooting his pain
Gotta spend a half an hour
Just to find a good vein
Loaded up his needle
With the junk that he's got
Praise the Lord Jesus
Let this be my last shot

Night after night after night can't sleep
Something 'bout the spell of goin' down on the street
Just can't stand another minute inside
I think you better hit the road
Drive

Come on
Well I'm beginin' to wonder
If we're all not sleepin'
From the same bad dream
And the same bad feelin'
Well I'm beginin' to wonder
If we're all just grieving
The loss of their lives
We stopped believin'

Let me tell you a story now

I saw a preacher on the street
He was sweatin' 'bout the Savior
Tryin' to beat the heat
But hell don't grant no favors
Hitchhiked to the bridge
With a Bible in his hand
(?)

Night after night after night can't sleep
Something 'bout the spell of goin' down on the street
Just can't stand another minute inside
I think you better hit the road
Drive

Can we do it again? Can we do it again?

Night after night after night can't sleep
There's something 'bout the spell of goin' down on the street
I don't wanna stay another minute inside
I think you better hit the road baby
And you better drive

Drive on on on on on on on on on on on
Drive on on on on on on on on on on on

You better drive on
You better drive on baby, baby
Keep on drivin'
Keep on drivin'
Keep on drivin' baby
Keep on drivin'
Keep on drivin'
Keep on drivin' night after night after night after night
After day after day after day after day
And night after night after night after night
You keep on drivin' baby
Till you get there
Till you get there
Drive on on on on on on on on on on on
Ooh yeah, come on
You better drive all the way
Drive all the way
For me yeah
