Anywhere the road goes
Every time the wind blows
Lean a little closer
Into the frame.

I'm not a lonely lass and
It's really just a blessing
'Cause even in the shadows
Life finds a way?

Make another phone call
Say that it's a long fall
But that's okay by me

Sometimes I bend
But I'll never break
And I'm not about
To win another day

It's more than a wish
So blow me a kiss
And send me out the door
Baby watch me fly
It's alright
Watch me fly.

Walking on a tightrope
Hanging on a high hope
Looking down,
There's nothing to see

I shatter every window
So I can feel the wind blow
Looking out,
The grasses so green

I write myself a letter
Put it all together
And I'll sign it away

Sometimes I bend
But I'll never break

And I am not about
To win another day

It's more than a wish
So blow me a kiss
Then send me out the door
Baby watch me fly
It's alright.
Watch me fly.

When I look in the mirror, I wanna see
Someone who kept the promise to me
An honest reflection
A girl who has tried
Living that comes from inside.

Make another phone call
Say that it's a long fall
But that's okay by me

Sometimes I bend
But I'll never break
And I'm not about
To win another day

It's more than a wish
So blow me a kiss
And send me out the door
Baby watch me fly
It's alright
Watch me fly

Watch me fly, fly, fly
