

## Dana Parish "We Fall Down"

Visit "[We Fall Down](#)" on [MotoLyrics.com](https://MotoLyrics.com)

The hour glass is lying down  
And I just stare and wonder how  
It came to this, it came to this

Meet me on the subway train  
Just hold my hand and say my name  
It doesn't matter if you know me  
Just reach out and try to show me

How did we fall down?  
We never knew what pulled us through  
Somehow we stay in an empty place  
But we wanna fill the page, turn it around  
But we fall down, we fall down

The radio keeps me awake  
I pray for all of my mistakes  
Another week that I don't sleep

Meet me in the parking lot  
Yeah, I'll be in the same old spot  
You always know where you can find me  
When you get here please remind me

How did we fall down?  
We never knew what pulled us through  
Somehow we stay in an empty place  
But we wanna fill the page, turn it around  
But we fall down, we fall down

How did we fall down?  
We never knew what pulled us through  
Somehow we stay in an empty place  
But we wanna fill the page, turn it around  
But we fall down, we fall down

Another week that I won't sleep
