We both know that something is coming and
something's gotta be done or we'll fall apart
And that would break my heart

There's still a chance for us baby
If we both try I think maybe we can work it out
Well that's what love's about

And I don't want to be lonely
And I don't want to be blue
And I don't know what's happened to me and to you

And I don't want to be lonely
And I don't want to be sad
Baby, let's try to bring back the love that we had

You been my friend and my lover
I've never looked at another
What can I say
I thought it worked both ways

There's still a chance we can stop it
Before the tears start to drop
It's not too late to try
We can't just let it die

And I don't want to be lonely
And I don't want to be blue
And I don't know what's happened to me and to you

And I don't want to be lonely
And I don't want to be sad
Baby, let's try to bring back the love that we had

And I don't want to be lonely
And I don't want to be blue
And I don't know what's happened to me and to you

And I don't want to be lonely
And I don't want to be sad
Baby, let's try to bring back the love that we had

And I don't want to be lonely
And I don't want to be blue
