Those L.E.Ds throw their glow to the potholed ground
Snap shut as they peer out from a collar, he's wearing
your lipstick
And drinking from your glass,
Inside there's a drillshot buzz through the bathroom
wall
Taste it from the telephone hear it in the siren wail,
write your name

In cellophane strips,
Across contours of your bloodied mouth

WOO!
See a distraction
Over the black wax
Every movement
Highlights in yellow

From kinky buses to ricket ladders
For a thousand foot tunnel and a world underground
Step out from your heavy breath crouch, breaking to
the point
Pleased to meet you

Take everything she's got and wrap it in plastic wrap it
in plastic
Encase it in film and take her fucking back

WOO!
See a distraction
Over the black wax
Every movement
Highlights in yellow

I can see a distraction
That mounts this paramount task
And it's said with such sadness
That the thrill is sealed in black wax

This ride, so far,
Came and went, here we are,
When they find you, so far

It'll take a miracle, here we are
