Come on baby it's party time,
I like it, I like it.
Come on baby it's party time,
Come on and have a party.

Celebrate tonite (do ya want more time?)
Will somebody please seem a light tonite.

Turn it down on da sound, give ya the run-around
drain it right out, all alone on my own,
I run right up to the grindstone
from the mic, fans wanna take it back to the mic,
mulla mulla mic,
to be as hard to crack as the Mismatch.

Come on baby it's party time,
I like it, I like it
Come on babe it's party time,
Come on and have a party.

Celebrate Tonight, (do ya want more time?)
Will somebody please seem a light tonight.
