(Ohhh) Oh! Yea!
Oh! Yea!
(Oh) Save me
(Yea) I think I need some therapy
(Oh) Save me
(Yea) I think I need some therapy

Talk on the phone, telling everybody that we're gonna
have a real good time (good time)
And we don't care if it gets a little rowdy, everything is
gonna be alright (alright)

Hey, so glad you made it, did you bring your friends?
(Did you bring your friends? Did you bring your
friends? Did you bring your friends?)
Hey, it's a party baby, hope it never ends
(Hope it never ends, hope it never ends, hope it never
ends)
Hey, so glad you made it, did you bring your friends?
(Did you bring your friends? Did you bring your
friends? Did you bring your friends?)

Oh girl touch me, poppin' it and singing that melody
Don't you need me? And I need some of that body
Oh girl touch me, poppin' it and singing that melody
Don't you need me? And I need some of that body

(Ahhh yea)
(Aright, aright, aright, aright ah yea, yea, yea, yea)

Hey, so glad you made it, did you bring your friends?
(Did you bring your friends? Did you bring your
friends? Did you bring your friends?)
Hey, it's a party baby, hope it never ends
(Hope it never ends, hope it never ends, hope it never
ends)
Hey, so glad you made it, did you bring your friends?
(Did you bring your friends? Did you bring your
friends? Did you bring your friends?)

Oh girl touch me, poppin' it and singing that melody

Don't you need me? And I need some of that body
Oh girl touch me, poppin' it and singing that melody
Don't you need me? And I need some of that body

I'm on fire (It's alright)
I'm on fire (It's alright)

gonna be alright (alright)
