Neon signs were shining bright  
And in the street lights (the street lights)  
I saw your shadow was fading away  
Well, I lost you all of a sudden

Good-bye my love, I love you too so  
Before you went away, I didn't know  
Memories awake, only in my dream  
When I think I lost them, they all come back to me

You said that you love me  
Looked at me softly  
You kissed me and held me all night so tight  
I know what you're feeling  
I know what you're dreaming  
All that you feel and everything in your mind

The memories are so clear (so clear, so clear...)  
(So-so many...) So many good years (good years...)  
The sweet ones I hold dear (hold dear, hold dear...)

Good-bye my love, I love you too so  
Before you went away, I didn't know  
Memories awake, only in my dream  
When I think I lost them, they all come back to me

The memories are so clear  
So many good years  
Sweet ones I hold dear  
Can't hold back the tears  
I need you by my side  
These feelings I can't hide  
So don't walk away, boy  
Baby won't you bring back
