Ask me I'm fine, or I will be

I gotta bullet proof vest on and the cure for aids
And a pill that makes me happy
Ask me I'm fine, or I will be
I've got the cure for loneliness and a pill that makes all
my problems resolved.

I got a bullet proof vest on
And I wire tapped your brain
I want to do this right
Dyno, dyn-o-mite

You should have just listened to your friends
You would have been over this by now
I thought we told each other to live in different worlds

[Chorus]

Oh you should have listened to your friends, you would
have been over this by now over this by now
Oh there's only so much I can take
But I guess we'll never really find out
(Well sure it's complicated, but I still know, that I can
get frustrated and snort that blow)kurt/jon crew
background part

Rate me and judge me on a graph that you drew
Hope I compare to the friends that left you for dead

I guess I'm not making myself perfectly clear [x2]
How many times is this gonna happen

I've got to blame all these people as fast as I mother
fucking can, you were fooled, this aint no fuckin day
job

[Chorus again]

Suddenly, we startle ourselves
Staring upon each other in silence
Silence

To think this whole time we're provoking each other in
blinding violence
