"Come With Me"

Visit "[Come With Me](#)" on MotoLyrics.com

Won't you come with me
Won't, won't you come with me, yeah
Oh

Won't you come with me
Won't, won't you come with me, yeah
Oh

I see you passing all the time
I like your face, I like your style
The way you move, I think it's cool
Come take my hand, and let's just groove

Come with me, come with me
To the place we can run free
Come with me, come with me
To the place we can run free

Come with me, come with me, come with me
To the place we can be free
Come with me, come with me, come with me
To the place we can be free

Just groove, just groove
(Just groove, just groove)
Just groove, just groove
(Just groove, just groove)
