Step inside, candle lights my despairing gloom  
I'm just no brooding teen - I'm considered abstruse  
It's so sparse being dark, can't you feel my pain?  
People are all the same. They isolate my ways

Catch the ghost train to the centre of my heart  
(then the dark will rise again)  
I am potent, I'm profound  
(then the clouds will part)

I am gothic  
I am pale  
I am scary  
I'm insane  
I'm a loner  
I am cold  
I feel special when people don't phone

I am gothic  
I am pale  
I am scary  
I'm insane  
I'm a loner  
I am cold  
I feel special when people don't phone
