"Stay With You"

Visit "[Stay With You](#)" on MotoLyrics.com

Every morning waiting
in the school
Waiting for the time
to stay with you
Think about your eyes
i see the light
Dancing through the sky
for all the night

Every day and every night
i always dream
that you are my life
I give you love

but you don't care
Don't make me cry
You can still repair

Every morning waiting
in the school
Waiting for the time
to stay with you
Think about your eyes
i see the light
Dancing through the sky
for all the night
