You are a force that thrills me, makes me come alive
I need to fill your love and rhythm to survive
~Coz this music gets me urgently in love and I
ignite
I feel it's time now to get into the magic tonight
~Coz I know you wanna feel it

All over, we're dancing in the streets now
All over, let us to really repeat now, baby
All over, we're dancing in the streets now
All over, let us to really repeat now, baby

Yeah, I've been waiting for this moment all my
life
Damn, we're invisible, together, you and I
Oh, this music gets me going after when into the
groove
I feel it's time now ~coz we are getting in
the move
And I know you wanna feel it

All over, we're dancing in the streets now
All over, let us to really repeat now, baby
All over, we're dancing in the streets now
All over, let us to really repeat now, baby

I wanna shake your body
~Coz I know you wanna do it anyway
Just keep it coming

I wanna shake your body
~Coz I know you wanna do it anyway
Just keep it coming

All over, we're dancing in the streets now
All over, let us to really repeat now, baby
All over, we're dancing in the streets now
All over, let us to really repeat now, baby
All over, we're dancing in the streets now
All over, let us to really repeat now baby
