"The One Thing"

Here, just you and me and the fear
I wonder if you are as scared as I am
I'm taking your hand and pulling you near

Bliss, the gentle touch of your lips
An endless moment where time is slowing down
Now I can't feel the ground

I just wanna breathe in this feeling
And never let it out
You just gave me something to believe in
You are the one thing I can't live without

I have never even tried
'Cause I always seem to be the one you only came to
If you needed to cry

If you are wonderin' what we should do
Don't worry baby cause we don't need a plan
Don't need to understand

I just wanna breathe in this feeling
And never let it out
You just gave me something to believe in
You are the one thing I can't live without

I never thought that I would be the one to find
Someone like you, someone like you
I led the selfish life until I realized
I can't live without you
Can't live without you

I just wanna breathe in this feeling
And never let it out
You just gave me something to believe in
You are the reason I keep breathing and believing
And dare to dream out loud
I just wanna give into this feeling
You are the one thing I can't live without
