It turns invisible again
The black and white woman
With the blackest eyes I've ever seen

As she disappears,
Inside me something goes wrong
It's like my blood is on fire, and it burns
Burn all my vessels and tissues
Until I disappear too
I'm sure my fate it's a fucking mistake

Again the sensation that I've forgot somebody

And when I look to the sun,
It's like a broken mirror
Where did all the nights go?
Forgive me dear, for all my bullet mistakes

It's like hell, we was turning gold
But there was a silver dagger in your heart

The drunk side of the dark
Turned into a nightmare
Suffocating

And when I look to the sun,
It's like a broken mirror
Where did all the nights go?
Forgive me dear, for all my bullet mistakes

Suffocating for the fuck sake!

How I wish our good times back
And then you can understand that
Death doesn't kill what time can't measure.
