"Will I Ever Need To Love Again"

Visit "[Will I Ever Need To Love Again](#)" on MotoLyrics.com

I've seen alot of love come and go
To get it right we must take it slow
If there's one thing I've learned it's to know not to rush
Cause the wisest hearsts know that too soon is to much

Chorus

She's a new beat to my heart
She make's it skip a beat
And I feel it right from the start
This girl of mine
She's the remedy, cure and the answer to the question
That I ask
Will I ever need to love again?
Will I ever need to love again?

Opportunity knocks
Let it in, let it in

We may never get a second chance
To try again, try again
Cause I'm never gonna let this love slip away from me
Never had it so good, so good
Let's not throw it away

Chorus

Now I won't say I'm your Mister Right
And I'm not your perfect guy
But there's one thing that I'll guarantee
I'll be by your side
When you're felling down
And I'll call you when you're out of town
It's the little things that show how much I love you

Chorus x2
