You are the one everyone wants to be  
I am the one they say, "I'm glad that's not me."  
When I go to sleep, I dream about you  
When you go to sleep, I bet you dream about you, too

Your life is filled with good times and cool clothes  
My life stands still, just watching where your life goes  
God please, let me live in your world for one week  
This life all yours, and it's a tease for those like me...

And it's a tease for those like me...

Sometimes I picture myself beating you up  
I see myself slamming your head off the ground  
And you beg and you plead and you cry constantly  
I'll make you say that I'm the best and make you say  
you wish you were me

And then, in your mind, I see me fucking your girl

Your cool car is now mine and so is your popular world  
All your friends, they love me, and love that I HATE YOU  
I'm like superhero, God bad ass motherfucker red,  
white and blue

You don't know me, but I know you  
It's a real love hate thing; I love to hate you (yes I do)  
I get so frustrated... but tell me, just what can I do?

I'll never be you (So sad and true) [x4]

I'll never be you (Never never)  
I'll never be you (Never never)  
No, I'll never be you  
I'll never be you (Never never)  
I'll never be you (Never never)  
No, I'll never be you  
I'll never be  
Never be Y-O-U

I wanna neva be...  
I will never neva be...

You you you you you...

I wont be [x5]

(Screams) I WILL NOT BE YOU!

But alas, this song past, my daydream fades to black  
Boring me, hopelessly, wishing that you'd be attacked  
And raped by demented monkeys with huge cocks  
And painted green like a jellybean  
Made a trampoline and a toxic swamp  
You're so smug, and so fake with your laugh and your  
click  
I want to be you so bad it makes me so fucking sick

But you suck, and you stink, and you're soulless and  
mean  
I wanna be in your fake, smug world  
We can hang out down at the Coffee Bean

We can hang out down at the Coffee Bean (you know)  
You and me hanging down at the Coffee Bean

I will never be  
Never, never be  
I know I'll never  
No, I'll never  
I know  
No I'll never be you

I hate you, I hate you but I really, really want to be you

Fuck!
