Tonight I think about you girl  
And I wake and I wake up in the middle of the night  
You appear in my dream  
And it feels so real  
When I'm holding on your arms, oh  
I'll never let you go  
I'm trying to fix this feeling  
Till the end of my day  
And I know that you'll never know  
That I'm here on your side  
That I'm here being your guide

How could you got me crazy  
Girl, how could you let me into your heart, ohh  
And just let it go  
Go on and let it go  
I wish I could be honest when I'm there with you  
I wish I started my life with you  
Please just make it true  
I'll never let anyone make you sad  
Though you, you thought me bad  
And let me regret of you  
You thought me bad and let me regret of you...

With you  
Together we can make it true  
With you  
We got to believe though we'll never know  
With you...

I'll pick you up  
And take you all the night  
Try to be your guard  
Who makes you feel alright  
Try to be your guard  
Who makes you feel alright...
