Put this day back
I don't think that
I don't think that it should stay
I stopped working off your deceit again
I don't care if you don't need me

I've been here
We've been here

Push this day back
It's a come back

So why
So why
So why can't I make you

It's a come back
Push this day back to the brink that
That won't
Repeat again
I tried working from this off beat within
You don't care if you don't need be

So why
So why
So why can't I
Make you high
Make you high
Make you high

Make you high
