

Dani Siciliano "Same"

Visit "[Same](#)" on MotoLyrics.com

You're not the same...
You're not the same...

You don't look the same
As you did the other day
Your smile is not the same
Anymore

What was the change
Was in another's face
A smile that has changed
From before

Day
Other day

You don't look the same
As you did the other day

Your eyes don't explain
And you ignore
What was the change
Was it different, was it same
Was it gone with you closing the doors

(that you did/what you said) (the other day)

You don't look the same
As you did the other day
Your smile is not the same
Anymore
