I was like Yo Yo Yo
What you doin over there
Cause that's a No No No
I can hear you loud and clear
What's the deal-eal yo
I know you didn't just go there
But now that you did I gotta get rid of you
And yo-ho For show Oh Yo

It was on a regular day
When I called to say
Hi to my man
I knew something was strange
When he quickly said
Hello and Bye and
I just
Paused for a second and called him back
He answered on the fifth ring
And didn't know how to act
He replied he was busy

I was like Yo Yo Yo
What you doin over there
Cause that's a No No No
I can hear you loud and clear
What's the deal-eal yo
I know you didn't just go there
But now that you did I gotta get rid of you
And yo-ho For show Oh Yo

By now I was heated
I was being mistreated
By my man
So I
Hung up the phone
Raced to his place
Doing 80 and
I Arrived
Hurried to the door
Burst right in
There he was kissing my friend
They looked up at me

He knew that it was the end

I was like Yo Yo Yo
What you doin over there
Cause that's a No No No
I can hear you loud and clear
What's the deal-eal yo
I know you didn't just go there
But now that you did I gotta get rid of you
Right now-oh For sho' Oh Yo

When I walked in on the two of them
I couldn't beli-eve my eyes
My mouth was lost for words
But my heart broke down an cried
He tried to explain
It's not what you think
We were just watching TV
But the TV wasn't on
Do you think I'm a fool
Just admit you were wrong

I was like Yo Yo Yo
What you doin over there
Cause that's a No No No
I can hear you loud and clear
What's the deal-eal yo
I know you didn't just go there
But now that you did I gotta get rid of you
Right now-oh For sho' Oh Yo

I was like Yo Yo Yo
What you doin over there
Cause that's a No No No
I can hear you loud and clear
What's the deal-eal yo
I know you didn't just go there
But now that you did I gotta get rid of you
Right now-oh For sho' Oh Yo
