Roll on sister
Roll on into that night
Roll on sister
Roll on into that night
The moon is full
So this hills are blue
I'm riding fast and honey so are you
Roll on sister
Roll on into that night
Roll on sister
Roll on into that night

Ohh and when you get up close
To her soul again
Ohh and when you get up close
To her soul again
It's alright - it's alright

Roll on mister
Roll on into that night
Roll on mister
Roll on into that night
Riding high to where you belong
Flying high and having so much fun
Roll on mister, roll on into that night

Ohh and when get up
Close to her soul again
Ohh and when you get up
Close to her soul again
It's alright - it's alright
