The night was long and I was, oh, so lonely
I didn't think that you had got my call
But as the sun was rising, you came to me
And all the time I've wasted just didn't matter at all

Oh, my sunshine lover
Now I've discovered you need me
I will hold you close and I'll let you into my heart
Oh, my sunshine lover
There'll be no other, believe me
'Cause you've won my heart
And no one can tear us apart

I hurt your pride and treated you so badly
But in the end you just walked out on me
But now you're here, you know I'll take you gladly
I'll make you mine forever and never let you go free

Oh, my sunshine lover
