Spiders climb on up the wall before - I fall asleep.

They look at me suspiciously - Well I am not gonna bite.

Then suddenly you're in my room  
Are you here to save me?  
Can we make this clear for once?  
Can't you save me?

You come on like a dream you make me want to fall  
asleep  
You come on like a drug and give me the kick that I  
want and need.  
Tonight I'm yours - tonight I'm all yours and I won't bite.

Spiders climb on up the wall - Come take the best of me  
Hurry on boys no need to bargain with me - I'll sell  
myself for free  
Then suddenly you're in my room  
Are you here to save me?  
Can we make this clear for once?  
Can't you save me?

You come on like a dream you make me want to fall  
asleep  
You come on like a drug and give me the kick that I  
want and need.  
Tonight I'm yours - tonight I'm all yours and I won't bite.

(Solo)

You come on like a dream you make me want to fall  
asleep  
You come on like a drug and give me the kick that I  
want and need.  
Tonight I'm yours - tonight I'm all yours and I won't bite.
