For a while we've been apart, the days they seem so long.
Every minute it gets harder.
To everyone I fake a smile like I really don't need you now.
But I'm breaking down inside.

Slowly, it's just killing me - but I can't control it baby.
And it's hard to fall asleep, oh it's hard to fall asleep at night.
And I'm wishing you were here so I wouldn't feel this way.
Oh I feel so incomplete.

I can't say it but I want you back.
Can't breathe cause it hurts so bad.
Tryna live a life in the past.
Ever since you left baby.
Looking back at photographs.
The way you smile and the way you laugh.
Tryna live my life in the past.
Ever since you left.

See baby I swallow all my pride, make any sacrifice.
Anything to make you come back to me baby.
See I just need a second chance to make it all right again.
You're the only one, I just want to be your man.

Slowly it's just killing me and I can't control it baby.
And its hard to fall asleep.

I can't say it but I want you back.
Can't breathe cause it hurts so bad.
Tryna live a life in the past.
Ever since you left baby.
Looking back at photographs.
The way you smile and the way you laugh.
Tryna live my life in the past.
