Still got my fire, I'm never cold  
It burns within me, it's taken hold  
Still finding mountains , I've yet to climb  
I still get lonely, but never mind

I'm the same  
Same  
As i  
As I ever was  
The same  
As i  
As I ever was  
True to the last word baby  
Still making myself heard baby  
I'm the same  
Yeah  
I'm the same  
Yeah

Still got my family, old friends of mine  
I know they still will stand, the test of time  
Still feel my history, my future too  
Black gold and green, red white and blue

[chorus (x2)]

Still got my temple. each curve and line  
Those who can't get with that , ain't worth my time  
Can't compromise no, that would be strange  
I'm still that aries lady, ain't nothin' changed
