Just because there are rules
It doesn't mean the game is fair, oh, oh
So you head the revolution
In your own illusion of despair

Where were you a year ago?
Today don't lose your faith

You're not the first
And you won't be the last
Some day all this pain will pass
With someone to care for
And be there for, always

When you kill the conversation
You make it hard to say, "Goodbye", bye, bye
I just hate the situation
But you get drunk and I'm just tired

That was over years ago
Now I won't change my mind
You're not the first
And you won't be the last
Some day all this pain will pass
With someone to care for
And be there for, always

Analyzing everything to find
Some peace of mind

You're not the first
And you won't be the last
Some day all this pain will pass
With someone to care for
And be there for

You're not the first
And you won't be the last
Some day all this pain will pass
With someone to care always

Someone to care for

You won't be the last
And be there for
You won't be the last
