If I was a cricus man
Then I'd be a circus man
Only you could understand
All my life ahead of me
That's the way it ought to be
Circus take me away
Yonder where I've been again
Then I'll be back again
Be a brand new day

See the girlie on TV
Wonder if she could see me
By the funny magazines of talk
It's a secret part of me, secret identity

Love to lvoe my honey all night long
Take a walk around the block
See the future of the clock
No good in forgetting

If I wasa circus man
Only you would understand
There's a story there to tell
See your brother burn in hell
