you make a lot of movies in your mind  
and you sure are impossibly unkind  
you got me by the ? this time i'm scared  
and i'm sure it can't simply disappear  
you're everywhere all at once and i fear  
i love you so and i can't let go  
i am nowhere to be seen, i'm out to lunch  
and i don't want things to turn out wrong  
so girl don't you turn and run  
i'm just a psycho trying to write a song  
and talk is cheap, i'm just a creep for your love  
i love you so and i can't let go  
you never were a zero til you die  
and i never thought you existed until you cry  
but you just can't prove a thing because you lied  
you make a lot of movies in your mind  
and you sure are impossibly unkind  
you got me by the ? this time i'm scared  
and i can't simply disappear
