my life is starting over again
over again my friends
say I'm back again
my life is starting over again
over again

my fame is spreading 'cross the land
now I've got me a band
got me a band
my fame is spreading 'cross the land
my life is starting over again
over again

I know that there's no place left to hide
but I guess that it's better than suicide
the years of suffering and pain
there's no one to blaim except myself
but my life is starting over again
over again

my time is speeding fast
it just won't last I forgot about the past
but my life is starting over again
over again

I know that there's no place left to hide
but I guess that it's better than suicide
my life is starting over again
over again my friends
say I'm back again
my life is starting over again
over again
over again
over again
