I know it's late
I know it's way too soon
But I can't take another moon
I'm lying awake, I can't turn out the light
'Cause you didn't kiss me
No you didn't kiss me goodnight

[Chorus:]

What do I do
'Cause i've tried it all
I promise you, I wouldn't call
But the night is so long with no end in sight
'Cause you didn't kiss me goodnight

Here in my arms is where you belong
I can't remember why we ever said we were through
Could it be, you're lonely as me
Are you tossing, and turning
Pacing and burning
Lost somewhere missing me
Needing that kiss from me too
Here in my arms is where you belong
I can't remember why we ever said we were through
Could it be, you're lonely as me
Are you tossing, and turning
Pacing and burning
Lost somewhere missing me
Needing that kiss from me too

Baby those sweet memories make me their fool
Shadows they tease and the silence is so cruel
Nothing is left and nothing feels right
'Cause you didn't kiss me goodnight
The day's incomplete, I can't turn out the light
'Cause you didn't kiss me, no you didn't kiss me
Baby come on back and kiss me goodnight
