

Daniel Lemma "Loneliness"

Visit "[Loneliness](#)" on MotoLyrics.com

When that sad ol' feeling
Come-a rolling round your door
What are you doing baby?

Well you've got so many acquaintances
Don't have that many friends
Got so many lovers
But you can't call any of them
What are you doing baby?

There's a loneliness right here
In these very streets
In these very walls
In these very bones
There's a loneliness right here
And it can't be repressed
And it can't be denied
And it can't be rocked

You know so well- here comes that lonely feeling

When that sad ol' feeling
Come-a rolling round your door
What are you doing baby?
When that haunting kind o' feeling
Just -a sweeping round your door
What are you doing baby,
Tell me now

Do you hang around in bars, submit to the ways of fate
Try to find your way to the altar, keep thinking it might
be too late
What are you doing baby?

And on that lonely day
You'll be standing by yourself
You got your friends around you
But you feel as if they left
