"Something Evil"

Now something tells me I shouldn't have stopped
But I can't resist this urge I've got
I'm a desperate man, shouldn't block my road
It's a-pulling on me and I gotta go

Well if this ain't something evil I don't know

Now the night is dark but the moon is full
She's got the lights turned on, but the shades are
pulled
I went to see the doctor, he just shook his head
You know by that I've got it bad

Well if this ain't something evil I don't know

And when it rains it rains so hard
I stand here soaking wet
I've got 'em shakes and I can not leave here yet
