"When She Comes To See Me"

Visit "[When She Comes To See Me](#)" on MotoLyrics.com

There's a nightingale in an oak tree
And he's singing for me -

When she comes to see me
When she comes around

And that gentle breeze in them summery fields
Plays the sweetest melody -

When she comes to see me
When she comes around

With fireflies and cikadas
Ain't that a scenery -

When she comes to see me
When she comes around

Ain't nothing else makes me feel this way
Nothing else make me feel this way

She's dressed in satin
She's draped in lace
She's singing fortunes from a far-off place -

When she comes to see me
When she comes around

There's a buggy in the driveway
There's a shiny black mare
There's a tension that's electric, filling up the air -

When she comes to see me
When she comes around

Ain't nothing else makes me feel this way
Nothing else makes me feel this way
