Do you know, you're beautiful
Admirable, and valuable
Every part, all of you
Just the way you are
Please don't change at all

Our God showed off , when he made plans
For you to grow, and now it's true
No one can be above our God
But you're close
Let me tell you 'bout

How beautiful you are
How beautiful, how beautiful
How beautiful you are

How beautiful You are...

But in this world, now-a-days
Magazines and TV-shows
We all can see, what we think
Would be a better me, be a better you

I wish that I, in times like that
Could be there ready, to hold you tight
Talk about the truth with you
I'd remind you 'bout

How beautiful you are
How beautiful, how beautiful
How beautiful you are

How beautiful You are...
