(Love me again, baby
Never let me go)

I got to go
But there is something I want you to know
Oh yeah
I need you today
But something came up and I can't stay
Oh no

All I can think of is that
I need you to love me again, baby
Never let me go crazy
Love me again, baby
Love me again

I feel so lost
Bleeding from the broken crush
Yeah, yeah
You feel so close
When I touch the wound the bleeding grows
Oh yeah, yeah

All I think of is that
I need you to love me again, baby
Never let me go crazy
Love me again, baby
Love me again
