Under the trees, a gentle summer breeze
This is life, no worries no nothing
Just bliss, come on girl, let me hold you tight
Beautiful eyes, an angel in disguise
Wanna touch your naked summer skin
One more time, come on girl let me hold you tight

This is the time
(You can feel it comin')
Everything is alright
This is the time
(You can feel it risin')
Baby let's spend the night

Girl close your eyes, forget about the time
This is our moment so let us make it shine
Ooh, come on girl let me hold you tight

This is the time
(You can feel it comin')
Everything is alright
(Feel it comin')
This is the time
(You can feel it risin')
Baby let's spend the night
(Together)
This is the time...

Just you and me, it's hard to believe
This truly exceeds my wildest dreams
Give me a sign baby, I've never felt like this before

This is the time...
