Visit "[Good Daay](#)" on MotoLyrics.com

Where is the moment when needed the most
you pick up the litter thats all in the parks
they tell me your life's been way of line you fall into
pieces every time but i don't need no carrying on
u stand line trying make a new song
you look at the man and then you carry on
they tell me your life's been way of line you fall into
pieces every time and i don't need no carrying on

(chorus)

cause you had a good day
your taking one down u sing a good song just to spin
you around
you say you not sue you tell me you don't lie you work
on your singing then you go for a drive you had a good
day see what you like your coming back down and you
really don't mind you had a good day

well you need a clear sea holiday the blue sky and the
warm day
