Shed off and peel
I'm in no shape or form
You're just a reject coming down for more

When two are receiving
You know I could be there
Soon you're laughing
Soon you're laughing my way

Your daddy don't get you
He'd been a big mess
Soon you're laughing
Soon you're laughing my way

You're urban, you're complete
And you know I will be there
Soon you're laughing
Soon you're laughing your way

When you're lost on the stoop
When you fall out of bounds
Yeah, you could be leaves down, down

And it's always your fault
You get lost in yourself
Yeah, you could be leaves down, down

And I can find you
Once you know 'bout this plan
And now I can find you
Once you insult the man

And yeah, you like this trash talking
Washing you down
And yeah, you like this trash talking
Moving me around

When two are deceiving
You know I could be there
Soon you're laughing
Soon you're laughing your way again

When you're lost in the stoop
When you lie down on bounds
Yeah, you could be leaves down, down

But it's always your fault
You get lost on the stupid things
When you're leaves down, down

Well, I can find you lonely
Without a plan
And now I can find you
Once you insult the man

And yeah, you like this trash talking
Washing you down
And yeah, you like this trash talking
Moving through all, stand down again

Now when you're lost in the stoop
When you lie down on bounds
Yeah, you could be leaves down, down

But it's always your fault
You get lost on the stupid things
When you're leaves down, down
