Never knew love
Could be this way
I never knew until you opened my eyes
And made me realize
That I can love again
And I never want this love to end
Now I don't wanna be a fool again
But somehow you made me feel
That you would never treat me that way
And now there's a love inside of me
That I want the whole world to see

For the longest time thought that you were not the one
Never knew that we would fall in love
And the moment that I thought I had enough
That's when you came to me
And made me see that you're the one

1 - Been in and out of love
Thought I had given up on love
Cause I felt I had enough, had enough
Then you came along and
Changed the way I felt about you in every way
So now I realize
That you were always by my side
Even when I though I wanted someone else

But you came along and
Changed the way I felt about you in every way

There were times when I was all alone
And you were there for me
And I didn't even know
You're love had a way of taking over
And now I really see
I ain't never gonna let you go
Together we will grow
Forever more
And we'll spend the lifetime
Holding on to love

For the longest time thought that you were not the one

Never knew that we would fall in love
And the moment that I thought I had enough
That's when you came to me
And made me see...

Repeat 1

Whoa, whoa, whoa
I didn't know that I would ever fall in love
After all the things that I was
I love the way, you make me feel
Now I really see yeah

Repeat 1 till end
