Will You Still Be There In The Morning

By: Daniel Sahuleka

If I could change your plan about leaving me behind

If I could change your mind and you'll be always mine

You just decided you're gonna leave me

You can not stand as it seems you are unhappy

If I could go back to the past girl

Then all of these things wouldn't last girl

What is the use of my being in love

When the love I once knew fades away

Reff:

Will you still be there in the morning

You promise not to wake me up

Let me dream away pretending you're still lying next to me

But things won't ever be the same as they used to be

Of the nights it seems how people drift apart

Never knowing how it feels to have a broken heart

Until mine got hurt at this moment

You put my heart broke a cane that will stay forever

My world I have built around you

My stories were always about you

That is the day when you go away

So my heart cries with you cries with you

Back to Reff
