Staring at the morning sun, looking at you.
While your face is lit up by the sun.
Not another day, not another day,
Could be good as this.
Not another day, not another day.

Oh and you...
You, you'll never fade me
Oh you...
You, you'll never fade me.
You... You... You...
You... You... You...

It's crystal clear there's few are seeing,
There's nothing more that I wanna know.
Not another girl, not another girl.
Could be good as this
Not another girl, not another girl.

Oh and you...
You, you'll never fade me
Oh you...
You, you'll never fade me.
Oh you...
You, you'll never fade me.
Oh you...
You, you'll never fade me...

Uhh...

Oh you...
You, you'll never fade me...
Oh you...
You, you'll never fade me...
Oh you...
You, you'll never fade me...
Oh you...
You, you'll never fade me...

You... You... You...
