Slip slide away, gonna ride my roller coaster everyday,
'N' it feels like I'm waking up in a daze,
When you're going through everyday in a haze,
And it feels like I'm going to the rodeo.

Ho de ho ho de

Were did she come from where did she go

It's okay, there's no way, ya...

It's okay, there's no way, ya...

Slip slide away, gonna ride my roller coaster everyday,
'N' I find myself getting off alone,
Ya I find myself getting off alone.
Gonna smoke this joint till I'm sober,
Gonna get drunk, 'cause I thought I told her.

It's okay, there's no way, ya...

It's okay, there's no way, ya...

It's okay, there's no way, ya...

It's okay, there's no way, ya...
