Push it up  
Push it up  
Moving side to side  
Push it up  
I will make you fly  
Dance until the music die !

You take me higher  
When you take me in your arms  
Pure desire  
I feel you're heart beat  
When I feel you close to me  
It's such a love heat !

It's such a rush,  
When we're dancing on the floor  
It's such a rush,  
Baby please show me some more,  
It's such a rush,  
You may closer now the star,  
It's such a rush,  
We can do it all night long !!!

Push it up,  
To the night tonight,  
Push it up  
Moving side to side,  
Push it up  
I will make you fly  
Dance until the music die  
Push it up  
To the night tonight,  
Push it up,  
Moving side to side,  
Push it up,

I will make you fly,  
Baby just push it up !  
up, up, up, up ...

The way you move me  
Feels like heaven for a while  
It make me feel free  
The music takes me  
With the rhythm so divine  
Is this how love feels ?

It's such a rush  
When we're dancing on the floor  
It's such a rush  
Baby please show me some more  
It's such a rush  
You may closer now the star  
It's such a rush  
We can do it all night long !!!

Push it up,  
To the night tonight,  
Push it up  
Moving side to side,  
Push it up  
I will make you fly  
Dance until the music die  
Push it up  
To the night tonight,  
Push it up,  
Moving side to side,  
Push it up,  
I will make you fly,  
Baby just push it up !  
up, up, up, up ...

To the night tonight,  
Moving side to side,  
To the night tonight,  
Moving side to side,  
Push it up,  
Moving side to side,  
Push it up,  
I will make you fly,

Dance until the music die  
Push it up  
To the night tonight,  
Push it up,  
Moving side to side,  
Push it up,  
I will make you fly,  
Dance until the music die  
Push it up,  
To the night tonight  
Push it up,  
Moving side to side,  
Push it up,  
I will make you fly,  
Baby just push it up !  
up, up, up, up ...  
Baby just push it up !  
up, up, up, up ...
