The sky is enlightened by flames  
Their souls are filled with pain  
Summoning unholy names  
The night, evil will reign

Deathspell  
Deathspell

Come with me, the way I'll you show  
To the regions deep below  
In your soul the seed he will sow  
The master of darkness, the Lord below

He takes your soul and I'll take your life  
I'll cut you wide open with my sacrificial knife  
I'll drink your blood, I'll cast a spell  
Your soul will forever be in hell
